## OBJECTIVE

Computer Science Engineering student with strong skills in Java, Spring Boot, React.js, SQL, and full-stack development. Seeking an entry-level software developer role to apply programming and problem-solving skills while learning modern technologies

## EDUCATION

<b>Tatyasaheb Kore Institute of Engineering And Tech. , Warananagar</b> <i>B.Tech CSE</i>	2021 – 2025 CGPA : 8.05
<b>Vivekananda college, Kolhapur</b> <i>Higher Secondary Education</i>	2020 – 2021 88.00%
<b>Samaj Vikas Vidyalaya, Sagaon</b> <i>Secondary Education</i>	2018 – 2019 87.60%

## SKILLS

**Programming Languages:** Java, SQL, Python, JavaScript

**Libraries and Tools:** React.js, Jira (project management), Git, GitHub, Postman, VScode, IntelliJ IDEA, Eclipse, Flask

**Cloud / Database:** Relational Database (MySQL), PostgreSQL, MongoDB, Salesforce Service Cloud

**Relevant Coursework:** Data Structures, Object Oriented Prog., Database Management System, Computer Network

**Java Tools and Technologies:** Multithreading, Collection API, JDBC, Maven, Hibernate, Spring Boot

## EXPERIENCE

Java Developer Intern | Innobyte Services, Delhi [ Sep 2025 – Oct 2025 ]

- Developed a full-stack **Quiz Application** using **Spring Boot, Hibernate, Thymeleaf, and PostgreSQL** for seamless quiz creation and management.
- Implemented **role-based authentication**, dynamic quiz dashboards, and **efficient data handling** through RESTful APIs. Gained practical exposure to web development and database integration.
- Optimized application performance using **ORM-level query tuning** and clean, maintainable code architecture.

## PROJECTS

**Smartphone Recommendation System** | *ML, Python, HTML, CSS, Jupyter Notebook* **February 2025**

- Developed a machine learning model to recommend smartphones based on user preferences.
- Used **Random Forest Classifier** to train the model.
- This project gives accurate smartphone based on User Preference.

**Job Portal Web Application** | *Java, Spring Boot, React.js, Spring Data JPA, PostgreSQL, IntelliJ IDEA* **September 2025**

- Built** a full-stack job portal application enabling users to create, edit, and delete job postings.
- Developed** RESTful APIs with **Spring Boot** and **Spring Data JPA**, ensuring efficient backend processing and database operations.
- Integrated** a responsive **React.js** frontend with backend APIs to deliver a seamless user experience.
- Implemented** data persistence and optimized queries using **PostgreSQL**, improving system reliability and scalability.

## CERTIFICATIONS

- |   |                   |
|---|-------------------|
| • <b>Spring Framework 6 &amp; Spring Boot 3</b>   | Udemy             |
| • <b>Java Database Connectivity</b>               | Apttech solutions |
| • <b>Scaler- SQL for beginners</b>                | Scaler            |
| • <b>Data Structures and Algorithms with java</b> | Apna college      |
| • <b>Java Programming language</b>                | Scaler            |
| • <b>HackerRank skill certificate-(SQL Basic)</b> | HackerRank        |
