EDUCATION

- Bachelor of Engineering, G. H. Raisoni,  
Pune, Pune, India, 2014
- Diploma in Mechanical Engineering  
(First class), Ekalyavya Polytechnic,  
Pune, Pune, India, 2011

CORE COMPETENCIES

- SAP Implementation, Support & Enhancement (ECC & S/4HANA)
- S/4HANA Implementation & Migration
- Order-to-Cash (OTC) Lifecycle Management
- SAP SD Configuration & Customization
- SAP MM Integration & Support
- SAP-VERTEX Tax Integration
- WRICEF Object Development
- Business Process Analysis & Reengineering
- Business Planning & Blueprinting
- Requirement Gathering & Functional Documentation
- Solution Architecture & Design
- Client & Stakeholder Engagement
- Cross-Functional Team Coordination (Onsite & Offshore)
- UAT Coordination & Hypercare Support
- Data Migration & Cutover Planning
- Post Go-Live Support & Troubleshooting
- Escalation Handling & Service Delivery Excellence
- Agile & Traditional Project Management
- Team Building & Leadership

CERTIFICATIONS

- Rise with SAP (SAP - 2025)
- Certified SAP ECC 6.0, SD Consultant  
(ATOS - SAP Authorized Training Center, Pune)

SAGAR GHORPADE

Driving Business Transformation Through Expert SAP SD/SCM Solutions | Certified Consultant with Global Delivery Excellence Across S/4HANA & ECC

Preference for remote or international opportunities, blending deep domain expertise, consultative acumen, and a balanced techno-functional approach to SAP delivery.

PROFILE SUMMARY

- A versatile and certified SAP SD/SCM Consultant with 11 years of progressive experience delivering end-to-end SAP solutions across S/4HANA, SD, MM, and ECC environments; including five full lifecycle implementations and multiple global support projects. Currently serving as a Lead Consultant at Ultron Systems, managing SAP engagements for major clients like SKF Bearings and Solenis, with a strong record of techno-functional delivery, stakeholder management, and consulting excellence.
- Possesses deep expertise in SAP implementation, project management, and business process optimization. Skilled in building functional and operational roadmaps, mapping and reengineering business processes (As-Is, To-Be), and enhancing team performance to align with business standards and drive efficiency, cost control, and revenue maximization.
- Recognized for ensuring adherence to SAP best practices, identifying opportunities for process improvement, and translating business requirements into optimized solutions. Demonstrated ability to analyze business specification documents, develop test strategies, define test cases, automate test scripts, and manage UAT, post-go-live support, and hypercare activities.
- Proficient in the full SAP system lifecycle—design, sizing, configuration, maintenance, and support—with strong command over Order-to-Cash (OTC) processes, SAP SD and MM modules, and integrations with FI, LE, Vertex O Series, Informatica, and Data Lake. Well-versed in WRICEF development and SAP Activate methodology.
- Experienced in managing complex SAP environments through custom configurations, ABAP debugging, interface management (IDoc, BAPI, RFC, Fiori Apps), and functional design. Adept at aligning technical solutions with evolving business needs, driving performance, compliance, and operational excellence.
- Demonstrates leadership in managing high-volume support environments, resolving tickets, and minimizing business disruption. Applies Agile methodologies and sprint planning to ensure continuous improvement and deliver tailored solutions that exceed client expectations.
- Expert in SD core processes, including pricing, tax/account determination, ATP, shipping, transportation, billing, partner/output determination, and root cause analysis.
- Global experience includes onshore roles across 13 countries, including the UK, France, Turkey, and Spain, enabling effective multicultural collaboration. Trusted for proactive issue resolution, ownership of solutions, and consistent delivery across managed services, implementation rollouts, and enhancement projects.

CAREER TIMELINE

WORK EXPERIENCE

Ultron Systems | Since Sep 2023

Role:

As, SAP SD Consultant | SKF Bearings – Pune (SAP S/4HANA) | Sep 2024 – Present

- Delivered comprehensive SAP SD support across global operations, ensuring seamless system functionality and business continuity on the SAP S/4HANA platform.
- Led resolution of high-priority (P1–P4) support tickets, consistently maintaining minimal system downtime and supporting uninterrupted operations.
- Maintained consistent SLA compliance on high-priority issues, contributing to improved business confidence in IT support. Drove key enhancements that led to measurable gains in system efficiency and user adoption.
- Spearheaded SAP S/4HANA system enhancements, resulting in improved performance, streamlined processes, and increased user satisfaction.
- Collaborated with cross-functional teams to perform detailed root cause analyses and implement long-term solutions. Proactively communicated with stakeholders, ensuring transparency, timely updates & alignment with support and enhancement goals in a high-volume environment.

AWARDS & RECOGNITIONS

**2020 & 2019 – Best Performance Award,**  
Microsoft: Recognized two years in a row for  
consistent excellence and achievement by a  
major technology partner.

**2018 – Client Recognition: Pat on the Back &  
Certificate of Performance:** Honored for  
outstanding client service and project  
success, reflecting strong client satisfaction  
and delivery.

**2017 – Best Performance of the Year:**  
Acknowledged for significant individual  
contributions and professional excellence.

**2016 – Team of the Year Award:** Celebrated  
for exceptional collaboration and impactful  
team performance.

PERSONAL DETAILS

**Date of Birth:** 18<sup>th</sup> May 1991  
**Languages Known:** English, Hindi & Marathi  
**Address:** Pune, Maharashtra

As, **SAP SCM Consultant | Solenis ECC & Emtelle – UK (SAP ECC & HANA) | Sep 2023 – Nov 2024**

- ❖ Led end-to-end SAP implementation projects, delivering within scope, time, and budget, while aligning with strategic business objectives.
- ❖ Acted as SME throughout project lifecycle—from blueprinting to post-go-live support—ensuring tailored solutions for unique client requirements.
- ❖ Directed the design and development of WRICEF objects to optimize process integration and enhance data accuracy.
- ❖ Accelerated defect resolution during UAT, enabling early go-lives and smoother handovers to business teams. Strengthened internal team capability by coaching junior members, improving overall project delivery quality.
- ❖ Conducted rigorous unit testing, facilitated UAT sessions, and ensured business readiness through defect resolution and stakeholder engagement.
- ❖ Delivered hypercare and knowledge transfer sessions to empower users and support long-term project success. Mentored junior consultants, enhancing team capability and knowledge retention.

**Team Lead – SAP OTC (Order to Cash) | IBM | Onsite – UK | Jun 2022 – Aug 2023**

- Role:**
- ❖ Led end-to-end OTC module implementation, from planning and data migration to system configuration and go-live. Successfully deployed OTC module, resulting in streamlined order processing and improved operational efficiency.
  - ❖ Ensured data integrity through robust migration strategies and implemented reliable system testing protocols. Resolved functional gaps and defects, enhancing system performance and stability.
  - ❖ Coordinated cross-functional teams and client stakeholders, fostering collaboration for on-time delivery, improving defect resolution turnaround.

**SAP SD Consultant / Vertex Consultant | Infosys Ltd | Pune | Oct 2018 – May 2022**

- Role:**
- S/4HANA Greenfield Implementation | Toshiba & Hitachi Projects**
- ❖ Acted as core team member across full project lifecycle, from requirement gathering to testing and hypercare. Developed & configured WRICEF objects & Fiori apps tailored to business needs.
  - ❖ Integrated SD with PS modules to support business processes like intercompany, STO, third-party sales, and consignment.

**SAP-Vertex Tax & Pricing Integration | Microsoft**

- ❖ Supported Vertex-based global tax configurations (US, EMEA, APAC), ensuring compliance and automation.
- ❖ Managed interfaces using RFC, BAPI, BADI, and IDOCs for seamless third-party system integration.
- ❖ Conducted testing using Vertex APIs and maintained tax code accuracy within SAP (OBCD, OBYC).
- ❖ Collaborated with external systems such as Informatica, Datalake, AX, and web services to ensure smooth data flow. Improved tax functionality and pricing accuracy, reducing compliance risks.
- ❖ Played a critical role in high-priority ticket resolution and post-go-live support, ensuring operational stability. Enhanced transactional efficiency through module integration and customized solutions.

**SAP Consultant – Implementation & Support | Capgemini – TEC (France & Pune) | Mar 2017 – Sep 2018**

- Role:**
- Implementation (France):**
- ❖ Led SAP implementation changes across material master, purchasing, and sales orders, ensuring business-aligned transitions across MM, PP, and SD modules.
  - ❖ Executed critical configuration changes (e.g., storage locations, shipping points) to meet evolving plant-level business requirements.
  - ❖ Coordinated with cross-functional teams to align master and transactional data with updated business processes.
  - ❖ Enabled seamless go-live execution through effective coordination between MM and PP teams.
  - ❖ Improved stakeholder engagement by aligning business units with new system modifications.
- Support (Pune):**
- ❖ Resolved SD module tickets, delegated tasks within the OTC support team, and implemented user-focused enhancements.
  - ❖ Improved delegation of authority and automated approval workflows using SAP Workflow.
  - ❖ Developed pricing and custom solutions where standard SAP functionality was insufficient, enhancing system usability.
  - ❖ Increased automation and transaction speed through workflow enhancements.
  - ❖ Delivered custom solutions to improve business user efficiency and address complex requirements.

**SAP Support Analyst – OST Team | Geometric Ltd. | Jul 2014 – Oct 2016**

- Role:**
- ❖ Provided SAP support for internal teams, assisting with transaction execution and troubleshooting.
  - ❖ Developed a custom end-user report to streamline operations.
  - ❖ Supported master data maintenance and performed system testing for new feature rollouts.
  - ❖ Reduced resolution time for end-user issues by optimizing ticket handling.
  - ❖ Enhanced system reliability through direct support and testing of new functionalities.

Refer annexure for key projects:

## ANNEXURE

### Enhancement Project – Apple

**Role:** SAP SD Consultant

- Worked as a key member of the Enhancement Requests (ER) team, delivering SAP SD enhancements tailored to business needs.
- Handled complex scenarios involving service notifications, user exits, and interface development to optimize and support core business processes.
- Collaborated effectively with cross-functional teams, ensuring seamless deployment of enhancements with minimal disruption to live operations.

### Agile Project Delivery – Siemens

**Role:** SAP SD Consultant (Agile Project Team)

- Operated within an Agile delivery framework to manage and deliver critical SAP SD enhancements and project-specific requirements.
- Interfaced closely with business stakeholders to understand priorities and deliver value-driven solutions.
- Ensured high-quality and timely implementation by working in sync with functional and technical teams, aligning deliverables with organizational objectives.
