Professional Summary

Versatile Software Developer with expertise in Python, Cloud Computing, Data Visualization, and Machine Learning. Experienced in software development, IT training, and teaching advanced technical concepts. Skilled in developing ML models, building responsive web applications, and creating interactive dashboards. Strong ability to work independently and collaborate with distributed teams.

Work Experience

08/2025 – 09/2025 Pune	Machine Learning Associate Amazon <ul style="list-style-type: none">Assisted in developing and deploying ML models to enhance data analytics.Improved algorithms and data accuracy through cross-functional collaboration.Researched and applied latest ML techniques for product innovation.
03/2025 – 08/2025 Pune	Lecturer JSPM Pune, Computer Engineering Dept. <ul style="list-style-type: none">Taught Python and Emerging Technologies to engineering students.Managed lab operations as Lab In-charge, ensuring practical implementation of concepts.
08/2024 – 03/2025 Pune	Lecturer RITP Lohegaon Pune, AI & ML Dept. <ul style="list-style-type: none">Delivered lectures on Cloud Computing and Data Visualization.Mentored students in AI & ML project implementation.
02/2023 – 05/2023	Web Development Intern Sonus Infotech <ul style="list-style-type: none">Built responsive websites and web applications using HTML, CSS, JavaScript.Followed clean coding standards and user-centric design.

Education

2020 – 2024	Bachelor of Engineering (Computer Engineering) ADYPSOE CGPA: 7.66
2018 – 2020	12th (MPBSE) Sankalp Public HSS, Timarni 67%
2016 – 2018	10th (MPBSE) Sankalp Public HSS, Timarni 87%

Skills

Programming Python, JavaScript, HTML, CSS	Data Analysis SQL, Data Visualization, Dash, Flask, Data Processing
Machine Learning TensorFlow, Computer Vision, AI Model Development	Tools & Frameworks OpenCV, Agile Methodologies, Collaboration Tools (Slack, Zoom)

Certifications

- App Development with Android, E&ICT Academy, IIT Kanpur
- Business Intelligence using Power BI, Skill Nation

Projects

- Advanced Sports Shot Detection System**
 - Built with Python, TensorFlow, OpenCV for real-time shot classification in football & cricket.
- Canteen Management System**
 - Cloud-based order management platform with tracking and adjustments.
- LLM Fine-tuning**
 - Fine-tuning LM and LLM's of size GPT2- LLaMA7B
