## PROJECT-1

**Title** : Skill Wise Service Level AHT  
**Client** : ICICI Bank  
**Technologies** : UiPath  
**Role** : Developer , Production Support

### Project Summary

This process helps to automate the KPI's (Key performance indicators) for preparing Skill wise service AHT we need to refer three workbooks Pivot sheets , and need to update the date into the master file. Preparing files with one day lag basis .

### Roles & Responsibilities

- Attend project related meetings, Involved in the designing Process work flows & Reviewing the Process Automation
- Business Requirement Analysis.
- Initial Client Requirement gathering and checking the feasibility
- Prepared Solution Design Document
- User Acceptance Testing and Post Implementation Support
- Defect logging and tracking
- Identifying opportunities for process improvements and implementing the same.
- Configure, build, test and deploy robots to accomplish tasks identified in the use cases.
- A daily/weekly performance reports needs to be sent out to the team and management and indicate the difference and deviations occurred during the course of action.
- Extensive involvement in Robotic Process Automation development process by using UiPath.

## GIVING THE DEMOS TO THE CLIENT AND RECEIVING THE SIGNOFF FOR THE MODULES DESIGNED.

## PROJECT-2

**Title** : Inward Remittance DI Process  
**Client** : Kotak Mahindra Bank  
**Technologies** : UiPath  
**Role** : Developer , Production Support

# RPA Developer Curriculum Vitae

---

## Project Summary

This process helps to automate the foreign currency to INR transactions. Customer will send the disposal instruction (PDF) via Email, Reading the Email , Download the Disposal instruction validating data in pdf and extracting data from pdf , Checking nostro reference number in TI Plus application and giving the transaction details in Ti Plus application and submitted to branches

## Roles & Responsibilities

- Attend project related meetings, Involved in the designing Process work flows & Reviewing the Process Automation
- Business Requirement Analysis.
- Initial Client Requirement gathering and checking the feasibility
- Prepared Solution Design Document
- User Acceptance Testing and Post Implementation Support
- Performing Web application automation using UiPath.
- Defect logging and tracking
- Identifying opportunities for process improvements and implementing the same.
- Configure, build, test and deploy robots to accomplish tasks identified in the use cases.
- A daily/weekly performance reports needs to be sent out to the team and management and indicate the difference and deviations occurred during the course of action.
- Extensive involvement in Robotic Process Automation development process by using UiPath.
- Giving the demos to the Client and receiving the signoff for the modules designed.

## **PROJECT-3**

**Title : Fore Closure SR Process**

**Client : Kotak Mahindra Bank**

**Technologies : UiPath**

**Role : Developer**

**Application : Siebel , CoreNX**

## Project Summary

This process helps to automate to sending the foreclosure statements to customer via Email .

## Roles & Responsibilities

# RPA Developer Curriculum Vitae

---

- Conducted automation assessment by interacting with Delivery manager, Support engineer in order to understand the activities carried out in the customer environment
- Developed AS-IS flow, To-BE flow, flow charts and test cases.
- Designed workflows using Automation tools such as UiPath.
- Testing the workflows in Test infra and deploying in the production
- Prepared Technical specification document of the automated process.
- Setting up demos and POC's to the customer in order to provide visibility on the automation solutions.
- Implemented End to End Robotic Process Automation (RPA) using UiPath.
  - Automated Desktop Sequence Activities using UiPath automation elements such as Mouse, Keyboard
  - Implemented selectors for interacting with window and web browsers for navigation of applications.
  - Used Excel automation for repetitive Excel data entry, appending and for comparing columns
  - Handled exceptions using Try-Catch activity
  - Configured the Bots and deploying processes and scheduled the jobs in UiPath Orchestrator.

## Achievements

Received numerous customer appreciations and rewarded with "**Winning Wizards of Digital Team award**" for implementing some critical automations within present deadlines.
