We would be implementing 4 different countries in the current Canon system in this project. All the data and all the mapping has to be as per the defined standards of the already implemented system.

214 Days

Peoplesoft HRO Support

- Discussing the detailed requirements and creating functional specification documents. Based on these documents the team can work on the requirements of the client.
- Interacted with the client throughout the project timeline as I was deputed at client site and discussed all the requirements with the HR stakeholders from India and

- Singapore. • Created the blueprints and functional specifications document.
- 212 Days**
- Peoplesoft HRO Development/Support**
- Worked as a Team lead in this project since the start of the project. Managing the team at Noida with the deliverables and timelines. This project has also the additional role of Individual contributor as well as being the Lead. So far, the project is going smooth and the client is happy with the work done till date. He has appreciated the team on few occasions for the efficient and good quality delivery.
- 366 Days**
- Peoplesoft HRO Development/Support**
- Working at client side from July 2015 till date. Mainly involved with implementation of India Absence Management system (Custom Bolt-On module) and Payroll Interface. We worked on adding some validations for the custom absence module for India based system. There was a payroll/absence vendor involved for calculating leave balances and loading the daily punch-In and punch-Out data. I was involved in SIT and UAT phase of the system along-with development and got few client appreciations for the same for these.
- 243 Days**
- Peoplesoft HRO Support**
- Worked at client side from December 2012 on mainly E-performance & Core HR modules. Handling lots of issues and development of new Reports, Interfaces, etc. Specially the process change of Creating Performance documents on the basis of JOBCODE instead of POSITION. Modification of the Letters Content depending on the date at which they are generated. Got Client Appreciation on a Pay review process that updates the salaries, jobcode, grade, etc. for desired employees.
- 184 Days**
- PeopleSoft HRO Platform Upgrade**
- This project mainly involves upgrade, Production defect fixes and enhancement. Roles: Involved Upgrade activities from 9.0 to 9.2 Have worked as a technical consultant for resolving issues faced during the project Worked on Self service transactions involving PAYG payment summaries, Maintain bank accounts, Pay distribution etc. Part of team as techno-functional consultant in upgrade work Performed functional testing as part of System Testing in the project Retrofitting objects for upgrade process Worked in Core HR, Global Payroll, Position Management
- 455 Days**
